

Nagababu Sattineni

Senior SDET

nsattineni18@gmail.com | 9573061141 | linkedin.com/in/nagababu-sattineni-66639a54

Senior SDET with 12+ years in QA, spanning manual and automation testing. Currently building and maintaining an API/UI automation framework on Karate at DP World, with CI/CD pipelines on Azure DevOps. Strong background in Selenium/Java automation, BDD (Cucumber), and end-to-end ownership of test strategy across release, patch, and hotfix cycles.

EXPERIENCE

Senior SDET

Aug 2021 – Present

DP World, Hyderabad

- Design and maintain API and UI automation suites on the Karate framework across multiple product modules.
- Build and own Azure DevOps CI/CD pipelines for automated test execution across environments.
- Drive test data strategy, regression coverage, and failure triage for release and drop cycles.

Stack: Karate, Java, Azure DevOps, Maven, Git

Senior Software Engineer in Test

May 2017 – Aug 2021

Gainsight, Hyderabad

- Owned QA delivery for the Reporting product — flat, aggregated, and filtered reports plus charting and dashboards.
- Led test design reviews and distributed work across the QA team for each release cycle.
- Ran parallel automation alongside feature development and certified releases, patches, and hotfixes.
- Partnered with development and product management to triage defects and scope enhancements.

Stack: Selenium WebDriver, Java, Cucumber, TestNG, Jenkins

Test Engineer

Jan 2013 – Apr 2017

GGK Technologies, Hyderabad

- Built Selenium/Java automation for Sangam, a timesheet and leave-tracking web app for Clientek (USA).
- Performed functional, regression, and re-testing for ePASS, a clinical assessment platform for Inovalon (USA).
- Managed and tracked defects through TFS, working directly with feature developers.

Stack: Selenium WebDriver, Java, TFS

SKILLS

Languages

Java

API Testing

API, Rest Assured

Leadership

QA Lead, Project Planning, Resource Planning
